

TAREK AHMED ZAKARIA

SOFTWARE ENGINEER

tarekelfanty@gmail.com | +20 1033967886 | Egypt | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFESSIONAL SUMMARY

Software Engineer with hands-on freelance experience since 2022 building responsive web applications and full-stack solutions. Skilled in React, TypeScript, Node.js, Express.js, REST APIs, database integration, authentication workflows, and modern UI development. Able to convert business requirements into clean, maintainable interfaces and backend services while using Git/GitHub and API testing tools in practical development workflows.

TECHNICAL SKILLS

Programming & Web	JavaScript, TypeScript, HTML5, CSS3
Frontend	React.js, Responsive Web Design, TailwindCSS, Component-Based UI
Backend	Node.js, Express.js, REST APIs, API Integration
Databases & BaaS	MongoDB, MySQL, PostgreSQL, Firebase, Supabase
Authentication	Login/Register flows, JWT, Firebase Auth, Session-based authentication
Tools	Git, GitHub, Postman, Deployment & basic optimization workflows
Software Engineering	OOP basics, Data Structures basics, Algorithms basics, debugging, clean code principles

PROFESSIONAL EXPERIENCE

Freelance Software Engineer Remote / Project-Based	2022 - Present
- Developed responsive web applications using React.js, TypeScript, HTML, CSS, and TailwindCSS. - Built backend services and REST APIs using Node.js and Express.js for full-stack application workflows. - Worked with multiple database technologies including MongoDB, MySQL, PostgreSQL, Firebase, and Supabase depending on project needs. - Implemented authentication features including login/register flows, JWT, Firebase Auth, and session-based authentication. - Used Git and GitHub for version control, code organization, and project delivery. - Tested APIs and application flows using Postman, browser dev tools, and practical debugging methods. - Deployed and optimized web applications with attention to responsive layouts, usability, and maintainable code structure.	

PROJECT EXPERIENCE

StyleSphere Store

E-commerce Web Application

- Built a modern e-commerce interface with responsive product pages and clean shopping experience design.
- Applied React, TypeScript, TailwindCSS, reusable components, and frontend state handling for scalable UI structure.
- Focused on mobile responsiveness, product presentation, layout consistency, and user-friendly navigation.

DreamKey Partners

Real Estate Listings Platform

- Developed a responsive real estate listings platform with clean UI sections for property presentation.
- Created reusable frontend components and structured pages to support property cards, listing layouts, and user navigation.
- Focused on professional visual hierarchy, responsive behavior, and smooth user experience across screen sizes.

TooGoodForMerch

Full-Stack Application - In Progress

- Building a full-stack application using React.js and Node.js with a scalable project structure.
- Designed backend/API flow to support future business features and integration needs.
- Prepared the application for payment workflow planning, including Stripe integration readiness.

SELECTED TECHNICAL CAPABILITIES

Frontend Engineering

- Build responsive layouts for desktop, tablet, and mobile screens.
- Create reusable React components and organize pages into maintainable structures.

Backend & APIs

- Create REST APIs using Node.js and Express.js.
- Connect backend logic with databases and frontend applications.

Database & Auth

- Work with SQL and NoSQL database options based on project requirements.
- Implement user authentication workflows such as login, register, JWT, Firebase Auth, and sessions.

EDUCATION

Higher Institute of Arabic Music

Egypt

CERTIFICATIONS & TRAINING

Software Development / Web Development Training

Russian Cultural Center

- Completed technical training through the Russian Cultural Center.

LANGUAGES

Arabic: Native | English: Basic working proficiency
